

# HOW TO REPORT A FACEBOOK PAGE

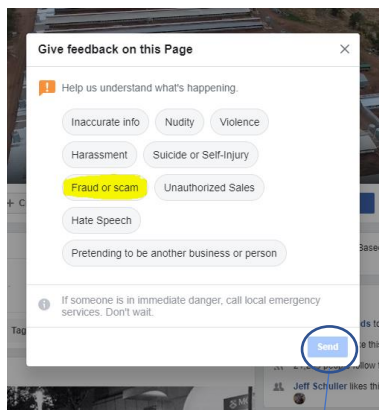

## Step 1 –

Locate the page name in the search bar at the top of the page. For example, enter 'Aussie Farms'. A number of options will show, ensure you have the correct page before moving to Step 2.

## Step 2 –

Click on the '...' button underneath the header image/video. This will display a dropdown list, click on the last option 'Give feedback or report this Page'. This will then show the following pop-up:

## Step 3 –

Click on the 'Fraud or scam' button, and then select 'Send'.

The pop-up will expand to add another section that says, 'help us understand the problem'.

Here, you can select 'Copying information about me or my business' then click 'Send' again.

This is the end of the process. If enough people report the page, the Facebook Administrator will then remove the page.
