

8 April 2020

GENERAL MESSAGE – LATEST QLD BORDER CONTROL MEASURES

Queensland border restrictions and entry passes for agriculture

Revised QLD border control measures were introduced by the Queensland Government on 3 April 2020 in response to COVID-19.

Following a request from Industry, the Queensland government has since [published](#) information on how these new measures impact agricultural businesses and the steps that are needed to follow to minimise potential delays.

The new requirements require specific actions from:

- **BORDER WORKERS** – This impacts Queensland feedlots close to the state border who have employees who reside in another state and travel to work across the border.
- **AGRIBUSINESS WORKERS COMING FROM INTERSTATE** – This impacts Queensland feedlots who have consultants, such as a veterinarian or nutritionist, who reside in or travel from other states to visit their facility.

Click [HERE](#) to visit the Queensland government website which provides steps to follow for employers and agribusiness workers travelling from interstate into Queensland.

If you are a feedlot, veterinarian or nutritionist who is impacted by these measures please visit the website and follow the requirements to prevent potential border crossing delays.

The new measures DO NOT impact freight or transport of goods workers.
